

**Together, we are serving leaders all over our nation and around the world...making an eternal difference**—We rejoice that through One Mission Society ministries someone comes to faith in Christ every 30 seconds (over a million this year!) and a new worshipping group starts every 8 minutes. More than 50,000 leaders from several countries were trained this year because we believe that, *“the best way to reach a nation is through the sons and daughters of that nation.”* (Charles Cowman, co-founder of OMS)

**We invite you to partner with us**—We can only do what we do because of the partnership of our support team...we are thankful for prayer support, encouragement, and financial support from so many. Our opportunities to serve have grown much more quickly than we could have imagined...and with the opportunities, our need for support

We are always needing for more people to become ministry partners. We're praying for an additional \$2,000 per month in support. Would you prayerfully consider joining our support team? We are praying for those who can support us on a monthly or regular basis and also those who can give special gifts to help with specific ministry expenses, especially the cost of international travel. To learn more about OMS and find out how to support our ministry, go to [www.onemissionsociety.org](http://www.onemissionsociety.org) or [www.onemissionsociety.org/give/theroehls](http://www.onemissionsociety.org/give/theroehls)

## Roehl Report 2015

*A Year of "New" Things...  
Moves, Members of the Family,  
And Ministry Adventures*

*We've been doing our Family Christmas letter for 35 years now...every year has its own joys and tears, yet we always see God's faithful love through it all. We've had a wonderful year with some "new" gifts God brought to our lives. Thanks for sharing life's journey with us!*

### Elise Is Getting Married!

In 2014, Elise moved back to Minnesota to begin a new season of her life. She's living in the home she grew up in! She will complete a Master's Degree Spring 2016...but the Lord had even more in mind for her than increasing her education! While working at Caribou, she met a young man who became a friend...and then became more. On January 16, she will marry Tim Morris. He's a wonderful guy who is also preparing for ministry! The Lord's got a

bright future for them! We're excited to have Tim join our family.

### **Aubrey, Dylan, Ian, and Xavier Moved... and Started a Church!**

Last December, Aubrey's family moved to Dylan's home town of Marshalltown, Iowa. We helped them move into their home and celebrate Christmas together. Over this year, they did the multitude of things needed to begin a new church. God's given them amazing favor as they've gotten to know people around the city and served others in love. A wonderful launch team formed around them. In October, Restore Church launched publicly with two services. They are off to a great start! Their ministry of "church for the rest of us" is welcoming people from many backgrounds into a relationship with Christ and the warm fellowship of a loving church family. We're proud of the great ministry work they are doing. Check them out at [www.restoremtown.com](http://www.restoremtown.com).

After over a year of trying, they were able to sell their home in Yakima and purchase their home in Marshalltown. Ian is now 8, and Xavier is 5...they are awesome boys!

As a family, we were able to get together several times...always a treat when we're all in the same place at the same time!

### **We Moved to a Different Home**

After praying for over a year and driving 40-50 minutes each way every day to work, we decided to sell our home on the north side of Indianapolis and move down to the south side of Indy where One Mission Society headquarters is. We sold our house and now rent a nice home on the OMS campus. It is a big change for us, and we miss our neighbors, but it sure is nice to walk across the street to work!

### **Tim Re-released His "Game Plan" Book**

Tim revised and updated his Game Plan: Developing Intentional Missional Ministry book in April. With new content and a new cover, it's being received well by leaders from many denominations and nations.

### **Ministry Adventures**

As part of OMS, we have many opportunities to equip leaders in other nations or preparing to minister in other nations. Tim has ministered in ten nations in the past two years and equipped leaders who serve in 30. This year, he traveled to Mexico to lead three training times. He and Shirley spent most of November on a trip that took them to Japan, Korea, an area OMS calls "South Pacific," and Hawaii. It is a joy to work with such a rich variety of leaders around the world.

*Korean leaders we trained in November*

In addition, Tim continued his coaching and training ministry with leaders from other ministry organizations. Our coach training materials were translated into Japanese and Korean.

**Our ministries**—As Director of Training for OMS, Tim helps shape and coordinate how we equip leaders across our teams, partners, and nations where we serve. As Corporate Secretary, Shirley works with the OMS Board, key leaders at OMS headquarters, and helps the missionaries with visas and other documents needed for them to travel and minister in other countries. It's a joy to be part of God's great work around the world. Our greatest joy is when we hear the stories of leaders we've equipped making an eternal difference where they live and serve.

You can keep up with our journey on a regular basis through Facebook, our *Roehl Report* email updates and our website: [www.timroehl.net](http://www.timroehl.net).

**Relationships**—We often say, "Big Kingdom, small world." We've often been amazed at the incredible people we get to meet and serve around the world. We're also thankful for the gift of our family, friends, neighbors, and ministry teammates. We are greatly blessed!
